- Uploading of Village Profile.
- Uploading of Infrastructure Project

5. Correct Data required for Vetting :

- Before Vetting correct GPS Co-ordinate maybe cross check with the portal Data
- Before Vetting correct LGD Code maybe cross check with the portal Data
- Before Vetting correct distance from Actual line of Control (LAC) maybe cross check with the portal Data
- Before Vetting correct Block and District maybe cross check with the portal Data

6. Vetting/Verification of Village

The screenshot displays the VVP (Village Verification Platform) dashboard. At the top, there's a navigation bar with tabs: Dashboard, Base Line Data, Projects, Border Outreach, Communication, Schemes Saturation, Masters, and Guidelines. Below this, a green header bar shows 'Vibrant Villages' and a search bar with 'VVP-II' entered. A 'Back' button is on the right.

Five colored boxes show summary statistics:

- Total Villages: 12
- Pending to verify: 1
- Verified: 11
- Village Profile Submitted: 0
- Village Profile Pending: 12

Below these are two checkboxes: 'Profile Updated' (checked) and 'Profile Not Updated' (checked). A green button labeled 'Village Details Verified' is present. Below this are links for 'Copy', 'Excel', 'Column Visibility', and 'Show 25 Rows'. A search bar is on the right.

The main table lists village details. The first entry is for 'Saisen' in Mizoram, which is marked as 'Verification Status' with a red 'X'.
