1(c) Overview of BADP

- ❖ The BADP covered villages were selected as those villages located within 10 Km aerial distance from the international borders.
- ❖ The focused area/sector of the scheme are Road connectivity, Sports & Education facilities, Community assets, Civic & Health infrastructures, Drinking water supply & Irrigation, Skill development & Livelihood support, Electrification & Renewable energy sectors, etc.
- ❖ Since its inception, about 11,000 works/projects has been implemented i.e, 300 to 400 nos of works annually under the scheme utilizing a fund of about Rs 61952.23 lakh i.e, an average of Rs 2000 lakh annually.

1(d) Overview of BADP

- ❖ There was no restriction on fund allotment for work in the initial phase of the scheme and some projects were executed utilizing only Rs 2 or 3 lakh for a particular work. However, during the FY (2012-13), the minimum fund allocation for a project was restricted to Rs 5 lakh per work and which was again amended during FY(2019-2013) to Rs 10 lakh per work.
- ❖ As there was no restriction on the upper limit of fund allocation, some projects costing as high as Rs 100 lakh to 250 lakh were implemented specifically such as in Bridge construction, Solar Plant projects, etc.
- ❖ On termination of BADP since FY (2021-2022), a new scheme of Vibrant Village Programme (VVP-II) has been introduced and launched in August,2025 by the Ministry of Home Affairs, GoI which also aims at the development of villages in the border areas along the international borders.
